Word Search

From mice to cows, pigs to electric eels, a variety of animal species contribute to medical breakthroughs that save millions of human and animal lives each year. Through research, scientists and doctors have discovered treatments, cures, and preventions for a number of human and animal diseases.

- **DIRECTIONS:** Find and circle animal names hidden within the puzzle. The answers can run across, down and diagonally.

M	A	R	I	N	E	S	P	O	N	G	E	R	Q	W
