## **Animal Gender Game**

The male and female of different animals are sometimes referred to by special names. Using the list of male and female names, match the common male or female name to the appropriate animal. Note: Some names may belong to more than one animal.

| boar<br>buck<br>bull | cow<br>doe<br>ewe | hen<br>hob<br>jill | mare<br>queen<br>ram | rooster<br>stallion<br>tom |
|----------------------|-------------------|--------------------|----------------------|----------------------------|
|                      |                   | Male               |                      | Female                     |
| 1. Pig               |                   |                    |                      |                            |
| 2. Sheep             |                   |                    |                      |                            |
| 3. Goat              |                   |                    |                      |                            |
| 4. Horse             |                   |                    |                      |                            |
| 5. Ferret            |                   |                    |                      |                            |
| 6. Guinea pig        |                   |                    |                      |                            |
| 7. Rabbit            |                   |                    |                      |                            |
| 8. Cat               |                   |                    |                      |                            |
| 9. Chicken           |                   |                    |                      |                            |

10. Cow
